

MetaDefender® Kiosk

Trust at the point of entry

MetaDefender Kiosk is a digital security guard—inspecting all media for malware, vulnerabilities, and sensitive data. Three models allow you to flexibly enforce media policies, based on the specific needs of your environment.

K1000

*Lowest cost
at scale*

K1000 is well-suited for attended environments, such as IT labs or at reception. The low price point aids deploying the K1000 at scale—for consistent enforcement across geographies.

K2000

*Nimble and
flexible*

K2000 has the smallest footprint, and the removable stand makes it an excellent self-check-in concierge for professionals. Mounted on the wall, the slim profile is highly functional onboard a ship or in a data center clean room.

K3000 and K3001

Ruggedized for industry

Supports 20+ media types

With unmatched durability and power, the K3000 and K3001 have proven ideal for protecting critical infrastructure. Support for multiple media types, even for legacy systems, simplifies regulation compliance and policy enforcement.
